EXECUTIVE SUMMARY

PURPOSE

The Ocala/Marion County TPO's Transportation Improvement Program (TIP) documents the anticipated timing and cost of regional transportation improvements for a period of five years. It is a program that serves as the budget for carrying out the adopted Year 2040 Long Range Transportation Plan. In July 1989, the Florida Legislature passed Senate Bill 1474 which revamped the TIP process in order to provide a more responsive and comprehensive method of developing the annual Florida Department of Transportation (FDOT) budget. This TIP represents the federal *Fixing America's Surface Transportation (FAST) Act* requirements according to (23 USC 134 (j)) and the state requirement of Florida Statute 339.175 (7). All sections and elements of this document are financially feasible as demonstrated through the TIP implementation schedule with corresponding committed public resources expected to carry out the plan pursuant to (23 USC 135 (g)(4)(D)(ii) and Title 49 CFR, Part 316. The TIP must include federal and state funded projects as well as turnpike, airport, and transit work items.

Federal and State Funded Highway Projects

This chapter contains project descriptions for the FDOT District Five 2017/2018 - 2021/2022 Tentative Work Program for federal and state road, enhancement, intersection, and railroad improvement projects. These projects are funded with National Highway System funds, Surface Transportation Program funds, or

State Trust funds and are developed by the FDOT based on TPO recommended priorities. Under state law the annually updated TIP shall consist of the state's first year funded improvements and the recommended subsequent four state fiscal years for advancement. This five-year schedule of federal and state projects begins on page 1-1. It is inclusive of the federally funded first three years and consistent with the Department's Tentative Work Program.

Public Transportation Element

On April 15, 1997, the City of Ocala and Marion County signed an inter-local agreement for the development of a fixed route transit system in Ocala, named SunTran. By December 1998, SunTran had purchased vehicles, established a route network, and contracted with a management company to establish a fixed route transit system and complementary paratransit system in Ocala and Marion County. On December 15, 1998 SunTran began service to the community. Within weeks SunTran had surpassed its six-month ridership goals. SunTran currently operates a fleet of nine vehicles on six routes. Daily ridership currently averages 1,421 passengers per weekday.

The City and County have an agreement with the TPO to oversee the transit service and to serve as the policy board for SunTran. The TPO staff operates as SunTran's administrative staff and includes a Senior Planner whose responsibilities include overseeing the contracted transit services and managing the FTA grant process. The TPO contracts with McDonald Transit Associates, Incorporated (MTA), which directly operates and maintains the fixed-route buses. MTA subcontracts for ADA

paratransit services with Marion Transit Services, the local Community Transportation Coordinator under the Florida Transportation Disadvantaged Program. This arrangement has proved to provide a complete, comprehensive and cost effective transportation system for the citizens of Ocala and Marion County.

The SunTran service consists of six routes. In downtown Ocala, five of the six routes meet at the Central Transfer Station and provide service to Ocala. The Central Transfer Station is a multi-modal terminal providing connections to Greyhound services and formerly to AMTRAK. The sixth route operates from southeast Ocala to the community of Silver Springs Shores. A transfer station located at the Marion County Public Health Unit provides access to the downtown routes from this route. SunTran's routes were developed to provide the greatest access for passengers to local hospitals, major employers, shopping sites, medical offices, schools and housing opportunities. Service operates from approximately 5:00 a.m. to 10:00 p.m. Monday through Saturday.

The basic adult fare for SunTran is \$1.50. A reduced fare of \$0.75 is offered throughout the day for seniors, persons with disabilities, and persons with Medicare cards as well as retired and active duty military. Youth and students pay \$1.10. Children five years of age or lower ride free. SunTran also has discounted monthly passes for all categories of passengers. Fares for Marion Transit Service paratransit services are \$2.00. (OIT)

The National Transit Database Report for FY 2015 showed that SunTran provided 31,547 revenue hours and 493,241 revenue miles of service to 415,762 unlinked passengers. Total annual operating expenses for the period were \$1.66 million.

Also included in this Element are funds provided to Marion Transit Services for the provision of transportation services under the Transportation Disadvantaged Program. The State of Florida Commission for the Transportation Disadvantaged provides grants to the TPO and to Marion Transit Services, as the CTC. Marion Transit Services was selected as the CTC for Marion County by the Ocala/Marion County Transportation Disadvantaged Local Coordinating Board and the TPO. The funds provided to the TPO are earmarked for planning functions. The funds provided to Marion Transit Services are earmarked for the purchase of non-sponsored trips and equipment. Non-sponsored trips are for any transportation disadvantaged individual that are not covered in whole or part by any other social service agency. Services provided under this program are coordinated by the CTC to increase efficiency as well as to reduce duplication of services.

Aviation Element

The TIP's Aviation Element addresses the next five years of scheduled FDOT programmed improvements to the Ocala Regional Airport and the Dunnellon/Marion County Airport. The FAA and FDOT are currently involved in numerous planned improvements for both of these regionally significant airports. The FAA general aviation terminal study forecasts that Marion County will experience rapid aviation growth over the next several years.

FINANCIAL PLAN

The Ocala/Marion County TIP is financially constrained each fiscal year. All federal and state funded projects can be implemented using current or projected revenue sources. The summary tables on pages 1-1 through 6-4 identify, by funding source, the projects scheduled by fiscal year. These tables correspond to funding available in the FDOT Tentative Five-Year Work Program, demonstrating the document's financial feasibility.

PROJECT SELECTION PROCESS

The project selection process is carried out annually by the TPO in accordance with federal requirements (23 C.F.R. 450.324(c)). This requires the Ocala/Marion County TPO to complete its project selection with the support and cooperation of the FDOT District Planning Office in conformance with the TIP process. When a project in the TPO planning area has been identified as a potential project, the TPO requests that FDOT and the FHWA actively pursue the appropriate funding.

The FDOT shall give priority to those projects that are:

1. Designed to maximize safe and efficient travel;
2. Identified in approved local government comprehensive plans to receive local matching funds in accordance with the provisions of Section 335.20 or to be funded pursuant to the provisions

of Section 339.12;

3. Within transportation corridors protected by local government action;
4. Used in the operation of or in conjunction with public transportation facilities; and
5. Located within the boundaries of a local government which has made a responsible effort to fund improvements needed to accommodate local traffic.

This document translates the local elected government officials' priorities for transportation improvements from the planning level to the actual project development level. The TIP is updated annually to ensure that these priorities are always current with the desires of the members of the local governments.

Amendments to or Removals from Transportation Improvement Program

The existing federally approved TIP can be modified at any time when there is a joint agreement between the TPO and FDOT. Modification of a current TIP may require amendment to the FDOT Adopted Work Program. The district may amend the Adopted Work Program based on projects that require mid-year rescheduling, however; any project change requires joint action by the TPO and the FDOT.

Therefore, the TPO may not remove or reschedule any local City,

County, or City/County funded level of service project from the current TIP to a subsequent TIP without an amendment. However if a locally funded project is a non-level of service requirement, the TPO may unilaterally add, remove, or reschedule any project to the TIP.

Action by the District Secretary is required for all joint TIP amendments that involves the FDOT Adopted Work Program that is to be advanced, deleted, or rescheduled pursuant to the following provisions of paragraph 339.135(7) (c), F.S.:

- (a) The change adds new individual projects;
- (b) The change adversely impacts financial constraint;
- (c) The change results in major scope changes;
- (d) The change deletes and individually listed project from the TIP/STIP; or
- (e) The change results in a cost increase greater than 20% AND \$2 milion.

CONSISTENCY WITH OTHER PLANS

The TIP shall be consistent, to the maximum extent possible, with the approved local government comprehensive plans of the governments within the TPO area. The TPO must indicate any

state and federal projects that are not consistent with the comprehensive plans to ensure the TIP's consistency with all applicable federal laws, rules, regulations and guidance available pursuant to (23 USC 134 (h) and (I)).

After the TPO adopts the TIP, it transmits copies to the FDOT District, FAA, EPA, DEO, RPC, State Clearinghouse, Regional Clearinghouse, FTA, Florida Energy Office, and to each Marion County Legislator for review prior to the final submission date. The FDOT District staff sends copies of TIP to FHWA and FDOT Central Office for review of the TIP against the Tentative Work Program and notes any discrepancies for use in preparing the next district work program. The DCA shall notify the TPO of any transportation projects in the TIP that are inconsistent with approved local comprehensive plans per Florida Statute 339.175 (10).

Administrative Amendments

In the event a TIP amendment is needed prior to a regularly scheduled TPO meeting, the TPO Director is authorized, per the TIP adoption resolution, to perform an administrative TIP amendment. Any administrative amendment is placed on the next TPO agenda for ratification at that meeting.

PROJECT PRIORITY SELECTION PROCESS

In November of 2015 the TPO adopted the Year 2040 Long-Range Transportation Plan. This Plan has two components, the Needs Plan and the Cost Feasible Plan. The first portion of the

plan, the Needs Plan, identified the deficient roadway corridors based upon population, employment and land use projections. The Cost Feasible Plan was developed by prioritizing these deficient corridors based upon the improvement's overall benefit to the highway network as well as available revenues.

The TPO staff evaluates all eligible priority projects based on FDOT and TPO policies. This evaluation includes an objective and technical review of each priority based on the road's level of service, physical condition, facility type, benefit to highway network, construction cost, and scheduled work program phase.

In addition to the process above, the TPO's advisory committees will consider the following factors in the final determination:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety and security of the transportation system for motorized and non-motorized users;
3. Increase the accessibility and mobility options available to people and freight;
4. Protect and enhance the environment, promote energy conservation, and improve quality of life;
5. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;

6. Promote efficient system management and operation; and
7. Emphasize the preservation of the existing transportation system.

After the CAC and TAC have prepared their priority recommendation, the TPO Board will review the committee's recommendations for the final TPO adopted Federal and State Priorities. This recommendation will be transmitted to FDOT for the development of the next FDOT Tentative Work Program for Marion County.

PUBLIC INVOLVEMENT

The Ocala/Marion County TPO strives to involve the public in all phases of the planning process, from the development of the long-range plans to the review of PD&E documents. Public information meetings and hearings are conducted for all FDOT projects throughout the PD&E process to enhance public awareness. Notices of the public information meetings and hearings are mailed to all affected property owners and published in local newspapers. The TIP is also reviewed and approved through a two-stage process wherein the TPO Citizen and Technical Advisory Committees comprise the first stage and the TPO Board offers reviews and offers final approval in the second stage. The draft document is made available to the public through the committee and board meeting notifications posted on the TPO website prior to the committee review and through the TPO Board review. Once the document is approved by the TPO Board, it is

posted on the TPO website. A physical copy of the document is also available to any citizen who requests one. In addition, all meetings of the TPO, CAC and TAC are conducted in accordance with the Sunshine Law, Chapter 286, Florida Statute. The TPO updates and adopts a formal Public Involvement Plan in accordance with 23 USC 450.316(b)(1) of March 28, 1995.

CERTIFICATION

The most recent certification review was conducted by the Florida Department of Transportation in March 2017. The Department recommended that the urban transportation planning process be certified for fiscal year 2017/2018. The next certification review will be performed in the spring of 2018.

RESOLUTION OF THE OCALA/MARION COUNTY
TRANSPORTATION PLANNING ORGANIZATION (TPO)
ENDORISING THE 'ROLL-FORWARD' TRANSPORTATION IMPROVEMENT
PROGRAM (TIP) FOR FISCAL YEAR 2017/18 – 2021/22.

WHEREAS, the Ocala/Marion County Transportation Planning Organization, designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Ocala/Marion County area; and

WHEREAS, Title 23 U.S.C 134(h), 23 CFR Section 450 and Florida Statute 339.175(7) require each Metropolitan/Transportation Planning Organization to annually submit a Transportation Improvement Program; and

WHEREAS, a Transportation Improvement Program is defined as “a staged, multi-year, inter-modal program of transportation projects which is consistent with the metropolitan (long-range) transportation plan [23 CFR 450.104].

WHEREAS the TPO Board has authorized the TPO Director to perform revisions and amendments to plans, programs, and documents approved by the TPO, when such action is needed to obtain state or federal approval within a constrained timeframe. The authorization includes the following tenets:

- (i) The TPO Director shall include any such revision or amendment on the agenda of the next regularly scheduled meeting for ratification by TPO Board;
- (ii) No revision or amendment performed by the TPO Director shall substantially modify any plans, programs, or document approved by the TPO Board or result in the need to conduct a public hearing regarding such revision or amendment.

NOW THEREFORE BE IT RESOLVED that the Ocala/Marion County Transportation Planning Organization endorses the 'Roll-Forward' Transportation Improvement Program for FY 2017/18 – 2021/22.

2018 LEGISLATIVE PRIORITIES

SUPPORT INCREASED FUNDING FOR THE TRANSPORTATION REGIONAL INCENTIVE PROGRAM

The Transportation Regional Incentive Program (TRIP) was established to encourage a regional approach to transportation system improvements. This program proved highly successful in the Central Florida area. Funding for the program has declined steadily since 2008 due to the economic downturn and a shift of \$60 million in 2014 to the Florida Rail Enterprise. Restoring the program to its pre-recession levels enable local governments to accelerate a number of transportation projects.

SUPPORT EXPANDED AVAILABILITY OF THE CHARTER COUNTY AND REGIONAL TRANSPORTATION SYSTEM SURTAX

Section 212.055(1) F.S. authorizes charter counties to levy (by countywide referendum) up to 1¢ for various transportation uses including highway construction and maintenance as well as activities to support a transit system. Expanding eligibility for this surtax to counties that are members of a metropolitan/transportation planning organization would provide another resource for local governments in those counties to address transportation issues as well as provide a source of matching funds for programs such as the Transportation Regional Incentive Program (TRIP).

SUPPORT INDEXING OF LOCAL OPTION GAS TAXES

Current market conditions, including more fuel efficient vehicles, are greatly undermining the purchasing power of local option gas taxes. In 1997, the Legislature allowed state gas taxes to be indexed to the Consumer Price Index (CPI) each year. Providing local governments the same opportunity to index local option gas taxes would enable local governments to better address both capacity and maintenance issues. Since 1990, the purchasing power of local option taxes has decreased by approximately 40%.

SUPPORT REDUCTION OF DISTRACTED DRIVING BY DESIGNATING TEXTING WHILE DRIVING A PRIMARY OFFENSE

Traffic crashes caused by drivers using wireless communication devices continues to be a concern. In 2013, the legislation was enacted that prohibited use of such devices while driving as a secondary offense, meaning a driver has to have committed a more serious violation (i.e. speeding, careless driving) to be issued a citation for texting while driving. Designating distracted driving as a primary offense would further deter this dangerous activity.

- Improve Interstate and Regional mobility within Marion County
 - Support a long range vision for a new east-west corridor parallel to US 27 and SR 326
- Provide relief to existing Interchanges at US 27 and SR 326 by providing an alternate access to I-75
 - Could result in approximately 52% delay reduction at the contiguous interchanges (IJR)
- Accommodate future traffic growth (2045)
 - Increase of 25,000 daily trips to the roadway network
 - With 3,000 projected trucks

Adjacent Projects

- Future East-West Corridor
 - NW 35th St / NW 49th St
 - NW 35th Ave to NW 44th Ave
 - Includes Interchange (PD&E Funded)

NW 49th Street (Phase 2C)

- Proposed NW 49th Street
 - 4 lane divided urban arterial
 - Designated future complete streets corridor
 - T%: 12% (IJR)
 - Potential to increase to 15-20%
 - 2045 AADT: 11,000
 - Proposed to be elevated over I-75
 - Connection to planned western extension

- Key Issues
 - Impacts to Baldwin Angus Ranch
 - Bicycle and pedestrian connectivity through interchange
 - Vertical alignment
 - Close Proximity to NW 44th Avenue
 - Access issues to abutting land uses
 - Creates weaving issues along NW 49th Street

Alternative Concepts to Evaluate

- Modification of NW 49th Street alignment
- Cattle crossings to allow use of Baldwin property SW of the proposed road
- Use remaining land for ponds
- Innovative intersection design (i.e. roundabout)
- Investigate at-grade vs. elevated alignments

I-75 - Flexibility for Future Expansion

- Future expansion of I-75: 8 lanes by 2030
- Future Land Use Plan
 - Potential Commerce Park (3,000 Acres)
 - Potential Intermodal Logistics Center (site of Municipal Golf Course)
 - Potential Generated Trips in Future
- Key Issues
 - Interchange concepts are based on approved 2045 model
 - Could result in reduced interchange service life
 - i.e. SR 326
 - Would require future re-analysis (new PD&E)
 - Could result in further impacts to adjacent properties
 - Interchange increases potential for development of adjacent properties
 - Could result in costly impacts for future expansion
- **Investigate alternative interchange configurations with surplus capacity**

Diamond Interchange (IJR Concept)

- NW 49th Street grade separated over I-75
- Free flow right turns at ramps
- Signalized intersection at NW 44th Avenue

BENEFITS

- Simple MOT
- Selected IJR Concept
- Smallest interchange footprint
- Compatible with planned NW 49th Street western extension
- Significantly improves operations of adjacent interchanges

DRAWBACKS

- **Proximity to NW 44th Avenue**
 - NW 49th Street profile
 - Weaving area between SB exit and NW 44th Avenue
 - Restricts access along 49th St. due to profile
- Impacts to newly constructed business on SW quadrant (Barracuda Storage)
- No U-turns for large trucks
- New utilities along NW 49th Street would have to be attached to the bridge (maintenance)
- Limited service life

Modified IJR Concept

- I-75 grade separated over NW 49th Street
 - **Addresses drawbacks of proximity to NW 44th Avenue**
- Signalized ramp terminals
 - SB right exit signalized

Welcome
The Florida Department of Transportation (FDOT) District 5 has initiated a Project Development and Environment (PD&E) Study to evaluate improvements along I-75 Studies to evaluate improvements along the corridor in Marion County. During the PD&E phase, preliminary engineering and environmentally feasible alternatives are developed and evaluated to determine which alternative most effectively addresses the needs associated with the project. The objective of the study is to provide overall traffic operations improvements along the study corridor. The PD&E study will evaluate intersection improvements and corridor improvements, as well as adding an interchange at NW 49th St.

FDOT has embarked on a public involvement program as a part of this PD&E Study. This process is designed to ensure public input in the development of alternatives by actively encouraging and facilitating the participation of the general public, citizen groups, interest groups, elected and appointed officials, environmental resource agencies, and other stakeholders.

I-75 at NW 49 Street Interchange PD&E Study
Marion County, Florida
FM Numbers: 435209-1-22-01

January 2017

The Florida Department of Transportation (FDOT) is launching a Project Development and Environment (PD&E) study along I-75 and NW 49 Street in Marion County.

I-75 and 49 Street Interchange PD&E Study (FM# 435209-1-22-01)

PROJECT OBJECTIVE
The proposed project would construct an interchange at I-75 and 49 Street. 49 Street currently crosses over, but does not provide access to I-95 at this location. An Interchange Justification Report (IJR) has been prepared which supports the justification of the proposed interchange. The IJR is currently under review by the Federal Highway Administration.

PROJECT PURPOSE & NEED
The I-75/NW 49 Street Road interchange is needed in order to provide improved regional connectivity to the County. Currently, the nearest interchange to the north of NW 49 St is SR 326 and the nearest interchange to the south of NW 49 St is Old Blitchton Rd in Marion County. These two interchanges are 4.28 miles apart. An interchange at 49 St has been a priority for the county. The proposed interchange would improve regional connectivity and travel time for area travelers, provide an additional evacuation route for area residents, improve incident response time along I-75 in this area and complement and facilitate the County's planned vision for this area.

PUBLIC INVOLVEMENT PROCESS

The Florida Department of Transportation (FDOT) has embarked on a public involvement program as a part of these PD&E Studies. Public involvement began in summer 2016 and will continue throughout the lives of the projects. This process is designed to ensure public input in the development of alternatives by actively encouraging and facilitating the participation of the general public, citizen groups, interest groups, elected and appointed officials, environmental resource agencies, and other stakeholders. Opportunities to comment include communication with project staff and attending public meetings.

Public participation is solicited without regard to race, color, national origin, sex, religion, disability or family status. For more information, please call, email or write to:

FTA FISCAL YEAR 2017 CERTIFICATIONS AND ASSURANCES

PREFACE

Before the Federal Transit Administration (FTA or We) may award federal assistance for public transportation in the form of a federal grant, cooperative agreement, loan, line of credit, loan guarantee, master credit agreement, or State Infrastructure Bank (SIB) cooperative agreement certain pre-award Certifications and Assurances are required, except as FTA determines otherwise in writing. The Applicant must authorize a representative (Authorized Representative) to select and sign its Certifications and Assurances and bind the Applicant's compliance. You, as your Applicant's Authorized Representative, must select and sign all Certifications and Assurances that your Applicant must provide to support each application it submits to FTA for federal assistance during federal fiscal year (FY) 2017.

We request that you read each Certification and Assurance and select those that will apply to any application for which your Applicant might seek FTA assistance during FY 2017. As provided by federal laws, regulations, and requirements, FTA may award federal assistance only if the Applicant's Authorized Representative selects adequate Certifications and Assurances.

We have consolidated our Certifications and Assurances into twenty-three (23) Categories. At a minimum, you must select the Assurances in Category 01. If your Applicant requests more than \$100,000 in federal assistance, you must select the "Lobbying" Certification in Category 02, except if your Applicant is an Indian tribe, Indian organization, or an Indian tribal organization. Depending on the nature of your Applicant and the Award it seeks, you may also need to select one or more Certifications and Assurances in Categories 03 through 23. Instead of selecting individual Categories of Certifications and Assurances, however, you may make a single selection that will encompass all twenty-three (23) Categories of Certifications and Assurances that apply to our various programs.

FTA, the Applicant, and the Applicant's Authorized Representative, understand and agree that not every provision of these twenty-three (23) Categories of Certifications and Assurances will apply to every Applicant or every Award or Project included in an Award, even if you make a single selection encompassing all twenty-three (23) Categories. Nor will every provision of each Certification or Assurance within a single Category apply if that provision does not apply to your Applicant or the Award it seeks. The type of Applicant and its application will determine which Certifications and Assurances apply.

Your Applicant is ultimately responsible for compliance with the Certifications and Assurances selected that apply to its Award, itself, any Subrecipient, or any other Third Party Participant in its Award, except as FTA determines otherwise in writing. For this reason, we strongly encourage your Applicant to take appropriate measures, including,

FTA FISCAL YEAR 2017 CERTIFICATIONS AND ASSURANCES

but not limited to, obtaining sufficient documentation from each Subrecipient and any other Third Party Participant as necessary to assure your Applicant's compliance with the applicable Certifications and Assurances selected on its behalf.

Except as FTA determines otherwise in writing, if your Applicant is a team, consortium, joint venture, or partnership, it understands and agrees that you must identify the activities that each member will perform and the extent to which each member will be responsible for compliance with the selected Certifications and Assurances. You also must identify each member's role in the Award, whether as a Recipient, Subrecipient, Third Party Contractor, or other Third Party Participant.
